Professional Summary

Laravel Full Stack Developer with **3+ years of experience** building secure, scalable web applications and REST APIs using **PHP, Laravel, MySQL and React**. Delivered production systems in healthcare, HR SaaS, logistics and e-commerce, including multi-tenant SaaS platforms, mobile app backends and BI dashboard APIs. Strong in MVC architecture, Eloquent ORM, role-based access control, payment gateway integration (Razorpay, Stripe), AWS, Docker and CI/CD.

Technical Skills

Backend: PHP 8, Laravel (8, 11, 12), Eloquent ORM, MVC, Queues & Jobs, Artisan, Composer
APIs & Auth: RESTful APIs, Laravel Sanctum, Laravel Passport, JWT, OTP Authentication, Spatie Permission (RBAC)
Frontend: React, JavaScript, Tailwind CSS, Bootstrap, Blade, HTML5, CSS3
Database: MySQL, Migrations, Seeders, Indexing, Query Optimization
Integrations: Razorpay, Stripe, Firebase Cloud Messaging, Twilio, WhatsApp API, MSG91, OpenAI API, AWS S3
DevOps & Tools: AWS (EC2, S3), Docker, CI/CD, Git, GitHub, Postman, Swagger, Agile / Scrum
Reporting & Testing: Excel Export (Maatwebsite), PDF Generation (DomPDF), PHPUnit, Pest

Professional Experience

Full Stack Developer — Dreamz Software Solutions Pvt Ltd, Pune *Mar 2026 – Present*
- Develop and maintain 5+ production Laravel applications (Laravel 8, 11, 12) across healthcare, HR and logistics domains.
- Built REST APIs for Android/iOS apps using Laravel Sanctum and Passport, including OTP login via WhatsApp with SMS fallback.
- Developed a multi-tenant HRMS SaaS using Laravel, React and Tailwind CSS with RBAC.
- Integrated Razorpay, Stripe, Firebase push notifications, Twilio and AWS S3 into client applications.
- Designed 26 secure, rate-limited, API-key protected BI endpoints powering fleet and tyre analytics dashboards.
- Managed API versioning, documented breaking changes and shared Postman collections with mobile teams.

Full Stack Developer — Vedh India, Pune *Feb 2025 – Feb 2026*
- Developed scalable Laravel applications following MVC and modular architecture principles.
- Designed and optimized RESTful APIs using Laravel API Resources and Eloquent ORM.
- Implemented authentication and authorization using Laravel Sanctum.
- Optimized MySQL schemas using migrations, indexing and query optimization.
- Deployed applications on AWS using Docker and CI/CD pipelines.

Full Stack Developer — SwaPra Technologies, Pune *Sep 2023 – Jan 2025*
- Built custom Laravel applications with a focus on performance, security and clean code.
- Developed admin dashboards, authentication workflows and Razorpay payment integrations.
- Implemented queues, background jobs and email notifications.
- Collaborated using Git-based workflows and CI/CD processes.

Web Developer Intern — Orange ITech, Pune *Jan 2023 – Jun 2023*
- Developed PHP web applications integrated with MySQL databases.
- Built responsive user interfaces using HTML, CSS, JavaScript and Bootstrap.

Projects

HRMS – Multi-Tenant HR SaaS Platform / *Laravel 12, React, Tailwind CSS, MySQL*
- Built modules for recruitment, onboarding, payroll, payslips, leave, attendance, assets, training and performance reviews.
- Integrated biometric attendance through webhooks and auto-generated offer and appointment letters in PDF and Word.
- Implemented subscription plans with multiple payment gateways, multi-language support and IP restriction.

Doctor Appointment & Therapy Booking Platform / *Laravel 12, Sanctum, Razorpay, MySQL*

- Built a multi-hospital appointment and therapy booking system with an admin panel and mobile REST APIs, deployed for 2 clients.
- Implemented OTP authentication via WhatsApp with SMS fallback, doctor availability slots, leave blocking and patient tokens.
- Integrated Razorpay payments and built reports and dashboards for administrators.

Fleet & Logistics Management System / *Laravel 8, Passport, Firebase, MySQL*

- Managed vehicles, drivers, trips, fuel, maintenance, work orders and complete tyre lifecycle (inward, issue, outward).
- Built 26 read-only BI APIs for tyre and vehicle analytics with API-key authentication and rate limiting.
- Added driver salary, income and expense tracking, Excel exports and Firebase push notifications.

Diagnostic Centre Management SaaS / *Laravel 11, Sanctum, Spatie Permission, Razorpay*

- Built a multi-organisation, multi-branch platform with subscription billing through Razorpay.
- Developed staff attendance, shifts, duty roster, salary, loans, leave, inventory and machine management modules.
- Implemented teleradiology requests, PCPNDT compliance records and module-level access control for the mobile app.

Hotel Booking Platform / *Laravel, Razorpay, Queues*

- Built multi-role authentication (Admin, Vendor, Customer) and REST APIs for room availability, bookings and payments.
- Integrated Razorpay with real-time availability validation, queues and notifications.

Multi-Panel E-Commerce Platform / *Laravel, JWT, Docker, AWS*

- Developed Admin, Dealer and Customer portals with JWT-secured REST APIs and analytics dashboards.
- Integrated DTDC courier APIs for shipment tracking and OTP alerts using MSG91 and Twilio.

Education

Bachelor of Business Administration (Computer Application) — SPPU, Pune 2019 – 2022
Score: 81.43%

Certification

Full Stack Development Certification — Orange ITech Institute, Pune
